## LED desk lamp with Flexible Gooseneck

Thanks to the flexible gooseneck, the SCHWAIGER<sup>®</sup> LED desk lamp always provides the right illumination when working at the computer. The lamp can be easily and quickly attached to table tops up to 55 mm thick without assembly using a screw clamp

and can be individually aligned for optimal lighting. For the best lighting conditions, you can conveniently adjust both the light colour and the brightness with the integrated touch sensor, as the lamp has three different lighting modes and is also infinitely dimmable.

### ARTICLE INFORMATION
