

## USB charging adapter extension

1x USB 3.1 port + 1x USB 2.0 port

The practical USB charging adapter from SCHWAIGER® is designed for the connection to a standard household socket and enables with its 2 USB connections mobile devices to be charged, whereby even faster charging speeds of compatible devices are possible via

the USB C connection. On top of that, the adapter has an integrated extension cable that even makes hard-to-reach sockets accessible again. This means that the smartphone is always within reach, even while charging.

- for convenient continued use of your mobile devices even while charging thanks to integrated extension cable
- for plugging into a standard household 230 V power outlet
- quick and comfortable charging via USB Type C
- scope of delivery: charging adapter, instruction manual

## TECHNICAL DATA

Connections	1x Euro plug (type C) 1x USB 3.1 C jack 1x USB 2.0 A jack
Power supply	110 - 250 V AC , 50/60 Hz
Output voltage	5,0 VDC
Output current	3,5 A (total) 3,0 A (USB 3.1 C) 2,4 A (USB 2.0 A)
Output power	17,5 W (max.) 15,0 W (USB 3.1 C) 12,0 W (USB 2.0 A)
Average active efficiency	85.8 %
Efficiency at low load (10 %)	76.8 %

No-load power consumption	0.08 W
Point of use	indoor use
Protection systems	overcurrent protection/overvoltage protection/short circuit protection
Cable length	2.5 m
Colour	white/grey
Weight (set)	175 g
Dimensions (width)	55 mm
Dimensions (height)	61 mm
Dimensions (depth)	25 mm
Model number	LADV225
Packaging	carton
