

LED monitor lamp

for mounting on flatscreens

The SCHWAIGER® LED monitor lamp always provides the right illumination for working at the computer. The lamp can be quickly and easily attached to any flat screen without mounting by means of a clip and can be aligned at the right angle for optimum lighting.

For the best lighting conditions, you can conveniently adjust both the light colour and the brightness with the integrated touch sensor, as the lamp has three different lighting modes and is continuously dimmable.
