

230 V USB Charger

360° rotatable

The 360° rotatable charging adapter from SCHWAIGER® is designed for the connection to a standard household socket and adds 2 USB ports for charging mobile devices to it. Thanks to the fully 360° rotatable housing, the socket adapter is extremely space-saving,

making it ideal for connecting to socket strips. Simply plug in the adapter, turn it in the required direction and other plugs can be used in the adjacent sockets without any problems.
