

LED Spotlight

with solar panel

The powerful handheld spotlight from SCHWAIGER® is ideal for illumination at work or on the road as a flashlight. Thanks to the adjustable carrying handle, you can always hold the spotlight comfortably in your hand or set it up firmly with the fold-out stand

so that you can continue working in the best light. To ensure the lamp always has enough power, it can be recharged in three different ways: via the mains adapter, the car charger or environmentally friendly and free of charge via the solar panel.

ARTICLE INFORMATION

Article Nr 661590
 EAN 4004005661590

Last updated: 05.01.2022

FEATURES (661590)

- powerful and highly efficient 5 W Osram LED for ideal illumination
- environmentally friendly, free charging with solar energy, independent of the power grid
- folding handle for more flexible use
- fold-out stand for a firm hold and hands-free working
- removable solar charging station for safe charging without overheating the lamp
- 3-fold charging function: via solar panel, USB charging adapter or car charging adapter
- integrated 4,000 mAh Lithium-ion battery for mobile power supply
- integrated multi-protection safety system (short-circuit protection, deep discharge protection, overcharge protection)
- scope of delivery: LED spotlight with solar panel, USB charging adapter, car charger, USB charging cable, instruction manual

TECHNICAL DATA

Power supply	via adapter: 5 VDC , 1 A via car charging adapter: 5 VDC , 1 A solar panel 2x 2,7 VDC , 0.1 A
Capacity of battery	4000 mAh
Battery type	lithium ion (rechargeable)
Type of lamps	5 W LED
Lumen	360 Lm (max.)
Run time	5 h
Charging time	6 h

Material of product	PVC polycarbonate
Colour	blue/black
Weight (set)	610 g
Dimensions (width)	170 mm
Dimensions (height)	160 mm
Dimensions (depth)	130 mm
Model number	ALS5
Packaging	carton
