

## 360° Ozone sterilizer

eliminates up to 99.9% of most viruses and bacteria

The 360° ozone sterilizer from SCHWAIGER® sterilizes the surfaces of your everyday objects and, when used correctly, removes up to 99.9% of most bacteria and viruses. No matter if it's your smartphone, keys or wallet, thanks to its optimal size the sterilizer is suitable for many objects. The integrated

USB port enables you to charge mobile devices during the sterilization process. The LED illumination can be adjusted as desired (brightness, colour selection) via touchpad, so the sterilizer can also be used as a night light, for example.
