

UV-Zahnbürstensterilisator

eliminates up to 99.9% of most viruses and bacteria

The portable UV toothbrush sterilizer from SCHWAIGER® disinfects your toothbrush and, when used correctly, removes up to 99.9% of most bacteria and viruses. Thanks to effective UVC light, it achieves a particularly antibacterial and germ-killing effect. The device offers space for up to 4 toothbrushes

and a toothpaste tube, is extremely quiet in operation and thanks to the built-in battery the ideal companion for travelling. In addition to disinfection, the toothbrush sterilizer also offers a time-saving drying function so that you are immediately on the go again.

TECHNICAL DATA

Connections	1x USB 2.0 Micro-B jack
Power supply	5 VDC , 1000 mA
Battery type	lithium ion (rechargeable)
Capacity of battery	2000 mAh
UV wavelength	275 nm
Disinfection time	approx. 5 minutes
Drying function duration	approx. 30 minutes
Material of product	ABS
	silicone

Colour	blue/white
Weight (set)	304 g
Dimensions (width)	85 mm
Dimensions (height)	231 mm
Dimensions (depth)	65 mm
Model number	UVZ5
Packaging	carton
