

Radio Alarm Clock

with Qi Charger and Bluetooth®

Our SCHWAIGER® radio alarm clock reliably wakes you up with your favourite radio station (FM). In addition, you can also play your own music from your smartphone via Bluetooth®, AUX or a TF/ Micro SD memory card. Thanks to the wooden casing,

the sound image is particularly voluminous. It is also possible to charge supported mobile devices (Qi) wirelessly. The radio alarm clock can be conveniently and quickly operated using the integrated device buttons.
