

## 90° AUDIO connection cable

90° jack plug (3.5 mm) > jack plug (3.5 mm)

This AINSTEIN jack cable provides the connection between devices with a jack connection such as mobile devices or audio/video receivers. The angled plug prevents kinking of the cable in narrow spots. The oxygen-free copper inner conductor takes over the exact signal line. The cable's high shielding ensures interference-free signal transmission

and the gold-plated contacts provide a high signal stability. The processed plugs are made of particularly durable metal. The kink protection ensures optimal strain relief as well as a form-fitting connection. In addition to that the flexible fabric sleeve prevents cable breakage.

## FEATURES (AIAU2010 413)

- connection cable for connecting two audio devices
- 90° angled connector shortens too long cable bendings and prevents the cable from breaking
- gold-plated pins offer best-possible conductivity, minimum transmission resistance and high protection against corrosion
- resilient and flexible textile sheath
- plug with kink protection

## TECHNICAL DATA

Connections	1 x 3.5 mm jack plug (stereo) 1 x 90° angled stereo jack plug (3.5 mm)
Plugs	metal gold-plated pin
Material of product	textile
Cable length	1 m
Inner conductor	OFC-Cu (copper with low oxygen content)
Colour	space gray
Packaging	carton
