The Network Innovators

1x 2x FAST ETHERNET 500 Mbit/s MINI AES 128 bit plug & play

dLAN® 500 Wifi Starter Kit

Finally, WLAN everywhere!

Revolutionarily easy. WLAN in every room. Best possible reception for smart phone and tablet. For the connection of the dLAN® 500 WiFi, devolo uses the household electrical wiring. This ensures that the full bandwidth of the DSL connection is available at any power

outlet a dLAN® 500 WiFi adapter is plugged into. This is quite unlike a WLAN repeater: A repeater only transfers an already weak signal which results in a still bad WLAN connection.

ARTICLE INFORMATION

Article Nr AV502W
 EAN 4250059690837

Last updated: 28.03.2016

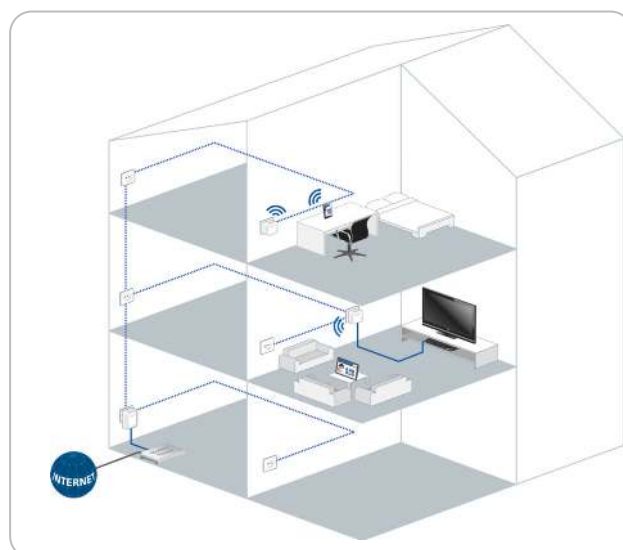

FEATURES (AV502W)

- LED display for operation and active WLAN / dLAN® connectivity
- ON/OFF switch for WLAN operation
