

dLAN® 500 duo+ (CH)

Connecting the best.

In its new design, the dLAN® 500 duo+ from devolo conceals the most innovative Powerline technology and makes your home network even more multimedia-based. The fast transfer rate (500 Mbit/s) allows you to experience entertainment at the highest level. The range+

technology provides a steadier internet connection with a significantly wider range. No power outlet goes to waste: this adapter comes with an integrated power outlet and also offers two Fast Ethernet ports for two terminal devices.
