

## CAT 6 Network Cable (F/UTP)

360° RJ45 plug > 360° RJ45 plug

This SCHWAIGER® CAT 6 network cable is used to connect a computer to the internet / to a network. The computer can either be connected to a HUB, to a network connector socket or to an ADSL / TDSL splitter. What makes this cable special is the workmanship of

the plug. Both plugs are rotatable by 360° and, thus, ideal for use in narrow spaces because there is no need for bending the cables.
