

devolo Home Control Smart Metering Plug

for more energy efficiency in your home

The devolo Smart Metering Plug is a simple adapter with an unobtrusive design. Simply plug it in between the electrical socket and the desired device. As with all other devolo Home Control components, you can now control the connected device conveniently via the devolo Home Control Central Unit. You decide

whether your coffee machine switches on at a chosen time via a timer, if you want to use your radio as an alarm clock every morning or if your devices will be controlled directly when you're on the go using the free my devolo app.
