

RECEIVER

Digital Satellite Receiver

Free To Air (FTA)

This energy-saving SCHWAIGER® receiver allows for reception of all unencrypted digital TV and radio stations. It can be directly connected to the TV via the SCART connection. The receiver provides 3000 channels memory capacity for TV and radio

stations and is factory pre-programmed on the satellite ASTRA 19.2 °. He is equipped with an optical signal indicator for optimum alignment of the antenna. The integrated electronic programme guide (EPG) offers a 7-day programme preview.
