

RECEIVER

Full HD 1080p

FULL HD SAT Receiver

for HD+ with TimeShift function (incl. 6-months-valid HD+ card)

This SCHWAIGER® satellite receiver comes with a 6-months-valid HD+ card (only in Germany) and is Unicable-enabled. It is suitable for reception of all free and HD+ TV and radio stations via satellite in high-resolution quality. This receiver is equipped

with the TimeShift function, which allows for time-delayed watching of TV programmes (only if an external memory device is connected). Software updates are made via satellite (OTA).
