

Universal Reception Unit (active)

for the HF / VHF / UHF reception

This SCHWAIGER® Curved Panel antenna is perfect for terrestrial (UHF/VHF) and digital (DVB-T) TV stations as well as for FM radio reception. Thanks to its piano-finish, the antenna combines well with the TV and also looks good when placed in plain view. The

antenna comes with a mount for wall mounting as well as with a foot for simple placing. An amplifier (35 dB) is already built in.
