DVB-T2 HD Allround Antenna (Active)

This SCHWAIGER® DVB-T2 HD antenna is suitable for terrestrial reception of digital TV and radio stations. Since the integration of LTE as standard for mobile internet, there have sometimes been problems with the reception of digital terrestrial TV signals. For this reason,

the antenna is equipped with an LTE band-stop filter which filters the LTE mobile telephony frequencies over 790 MHz. This makes for trouble-free reception of DVB-T2 HD signals.

FEATURES (DTA3000 011)

- optional accessories: mast fastening set for DVB-T antennas (MAB3000 011)
- built-in LTE band-stop filter for filtering LTE mobile telephony frequencies
- with built-in amplifier
- reception of analogue and digital signals
- reception of VHF signals
- no horizontal/vertical realignment for differently polarised stations
- power supply through the DVB-T receiver directly or via power supply unit with power inserter
- suitable for set up on flat surfaces as well as for wall and mast mounting
- content: 1x antenna, 1x antenna connection cable, 1x DC switch, 1x external power supply, 1x antenna connection cable, 2x screws, 2x dowels

TECHNICAL DATA

Quality	ULTIMATE
Technology	DVB-T2
Type of antenna	indoor and outdoor antenna
Connections	1x F jack
Antenna gain	(max.) 35 dB
Material of product	splashproof
Cable length	3 m
Operating temperature	- 40 bis +60 °C
Frequency range	174 - 230 MHz (VHF) 470 - 790 MHz (UHF) 87,5 - 108 MHz (FM)

Power supply	via adapter: 230 V AC / 5 V DC, 100 mA from the receiver: 5 VDC , 40 mA
Colour	silver
Weight (set)	200 g
Dimensions (width)	170 mm
Dimensions (height)	140 mm
Dimensions (depth)	40 mm
Packaging	carton
