

freenet TV

## Freenet TV CI+ Module

The freenet TV CI+ module allows for reception of encrypted TV programmes which are broadcast according to the new digital terrestrial TV standard, DVB-T2 HD, and are part of the freenet TV portfolio. The CI+ module works based on Irdeeto and without a

Smartcard. It can be used with all DVB-T2 H. 265/HEVC enabled receivers or with TVs which are equipped with a compatible tuner.

**freenet TV** Einfach. Besser. Fernsehen über DVB-T2 HD.
