

RECEIVER

Digital Terrestrial Receiver

This terrestrial SCHWAIGER® receiver is suitable for reception of unencrypted DVB-T TV and radio stations. Power supply for an active antenna can be switched on or off. In addition, the receiver has low consumption in standby mode and allows for environmentally-

friendly power consumption. The TV can be connected to the receiver via the SCART connection.

ARTICLE INFORMATION

Article Nr DTR600
 EAN 4004005600896

Last updated: 23.03.2016
