FEATURES (EKV1525 211)

- broadband amplifier for satellite reception
- power supply via integrated power supply unit
- pre-equalised frequency response
- particularly suitable for use with the SCHWAIGER® head-end station

TECHNICAL DATA

Connections (input)	1 x F jack
Connections (output)	1 x F jack
Output level (max.)	120 db μ V
Frequency range	40 - 862 MHz (terrestrial) 950 - 2150 MHz (SAT)
Amplification (typical)	40 - 862 MHz -3 dB 950 MHz 15 dB 2150 MHz 25 dB
Noise figure (typical)	8 dB
Power supply	90 - 364 V AC , 47 - 63 Hz, max. 200 mA
Power consumption	max. 4 W
Dimensions (width)	115 mm
Dimensions (height)	160 mm
Dimensions (depth)	60 mm
packaging	carton
