

Multifunctional lamp

including charging station

This SCHWAIGER® multifunctional lamp provides proper illumination and bright lights with the powerful COB (chip-on-board) LED and works self-supporting without grid. The lamp can be switched from main to head-light due to the 2-in-1 function and it's optimally

protected because of the rugged housing. Additionally, the lamp is equipped with a practical and strong magnetic mount and a hook for secure hanging. A charging station is included within the delivery.

FEATURES (FL1100 531)

- 2-in-1 function - main light (COB) head light (3 LEDs)
- ideal illumination due to standard LED/LEDs and an extremely powerful COB (Chip-on-Board) LED
- powerful lithium-ion battery
- rear-mounted magnets & foldout hook
- charging station with indicator light and overload protection
- rugged and impact-resistant ABS housing
- content: multifunctional lamp, charging station, 230V power adapter

TECHNICAL DATA

| | |
|---------------------|---|
| Power supply | 100 - 240 V (Power adapter) |
| Capacity of battery | 4000 mAh |
| Battery type | lithium ion (rechargeable) |
| Type of lamps | 3 W COB light-emitting diode (LED) + standard LED |
| Lumen | 300 Lm (Main light) 90 Lm (Head light) |
| Range | 30 m |

| | |
|---------------------|----------------------------------|
| Charging time | 6-8 h |
| Service life | 20000 h |
| Run time | Main light 4 h Head light 7 h |
| Kelvin | 6,000 K |
| Material of product | ABS |
| Colour | black/yellow |
| Packaging | carton |
