

## LED Light Bulb (E27)

### RGBW Multicolor Light

This LED light bulb creates an unusual room atmosphere due to the different light colours as well as the adjustable light intensity and colour temperature.. The SCHWAIGER® LED light bulb can simply replace common light bulbs (E27 socket). In addition to the HOME4YOU network, it can also be integrated into various other Zigbee gateways

such as Osram, Philips or Ikea and can then be controlled with the respective app. Alternatively, the LED light bulb can also be operated with the remote control (ZHF02-MK). The remote allows for operating up to 16 light bulbs at the same time and also has a function for creating individual groups of light bulbs.

## ARTICLE INFORMATION

Article Nr  
EAN

HAL300

Last updated: 10.09.2018

## FEATURES (HAL300)

- dimmable light
- adjustable RGBW light colour
- adjustable colour temperature
- adjustable light intensity (brightness)
- operation with the SCHWAIGER App via gateway or directly via remote control (ZHF02-MK)
- content: light bulb, user manual

## TECHNICAL DATA

|                      |                 |
|----------------------|-----------------|
| Integrated protocols | ZigBee v3.0     |
| Energy efficiency    | A+              |
| Colour shade         | RGBW Multicolor |
| Lumen                | 806 Lm          |
| Energy consumption   | 10 kWh / 1000 h |
| Base                 | E27             |
| Performance          | 9.5 W           |
| Corresponds to old   | 60 W            |
| Kelvin               | 2,700 - 6,500 K |
| Reflected beam angle | 240 °           |

|                       |                           |
|-----------------------|---------------------------|
| Dimmable              | yes                       |
| Service life          | 25000 h                   |
| Switching cycles      | 25000 x                   |
| Operating temperature | -20 bis 40 °C             |
| Power supply          | 220 - 240 V AC , 50/60 Hz |
