

LED Light Bulb (GU10)

RGBW Multicolor Light

This LED light bulb creates a special living atmosphere due to the adjustable light intensity and colour temperature. The SCHWAIGER® LED light bulb can simply replace common light bulbs (GU10 socket). In addition to the HOME4YOU network, it can

also be integrated into various other Zigbee gateways such as Osram, Philips or Ikea and can then be controlled with the respective app.

FEATURES (HAL550)

- dimmable light
- adjustable RGBW light colour
- adjustable colour temperature
- adjustable light intensity (brightness)
- operation with the SCHWAIGER App via gateway or with ZigBee 3.0 controller
- content: 1x illuminant, user manual

TECHNICAL DATA

Integrated protocols	ZigBee v3.0
Energy efficiency	A+
Power supply	220 - 240 V AC , 50/60 Hz
Colour shade	RGBW Multicolor
Lumen	350 Lm
Energy consumption	6 kWh / 1000 h
Start-up time	< 1 s
Base	GU10
Performance	6 W
Corresponds to old	50 W
Kelvin	1,800 - 6,500 K

Reflected beam angle	40 °
Dimmable	yes
Service life	25000 h
Switching cycles	25000 x
Operating temperature	-20 bis 40 °C
Colour	white
Dimensions (width)	50 mm
Dimensions (height)	61 mm
Dimensions (depth)	50 mm
Packaging	carton
