

PLUG & PLAY Presentation Tool

Simplify the way you conduct meetings and hold presentations!

This compact and light presentation tool will change the way you hold presentations and conduct meetings forever. The HDMI Mirror is easy to use and allows you to show contents on a central screen by simply pressing a button. The HDM2W is universally compatible with all common technical devices that are equipped with an HDMI interface. "Problems concerning cable connections, continuous calibration of the resolution or configuration difficulties finally are a thing of the past!" Plug

& Play There is no need for installing any additional software or for starting a programme. Just connect the transmitter and the receiver to your terminal devices. By pressing a single button, you can then show contents of your PC, receiver, DVD player, etc. on a TV or, via projector, on a big screen. The HDM2W can be used with any operating system (e.g. Windows, Mac, Android or Linux).
