

## PIR Motion Detector

for the SCHWAIGER "Green Guard" system

This SCHWAIGER<sup>®</sup> PIR motion detector for indoor use is used to secure houses, e.g. in hallways or entrance areas. As soon as the motion detector detects a violation, a signal is sent to the centre unit which then triggers an alarm in order to discourage intruders. The PIR

motion detector is an additional product for the SCHWAIGER<sup>®</sup> wireless alarm system "Green Guard". The sensor only works in combination with a centre unit (e.g. HG1000 or HG2000) and cannot be used individually.

(HGA300 532)

- alarm is triggered upon detection of motion
- for securing hallways or entrance areas
- large range of radio signal
- built-in PIR sensor makes for reliable detection of motion
- easy installation
- additional product for the SCHWAIGER® wireless alarm system "Green Guard"
- battery-operated (batteries not included)
- content: motion detector, wall mount, mounting material, user manual

## TECHNICAL DATA

Point of use	indoor use
Mounting type	with screws
Radio frequency	868.35 MHz (+/- 0.5 MHz)
Radio range	max. 250 m (open area)
Settings (code)	home security code: via 4-pin jumper/ zone code: via 8-pin jumper
Batteries	1x 6LR61 (9 V Block)
Coverage angle (PIR)	110 °

Power supply	via batteries
Material of product	plastic
Colour	white
Dimensions (width)	65 mm
Dimensions (height)	40 mm
Dimensions (depth)	120 mm
Packaging	sealed blister SF
