

PIR Motion Detector

for the SCHWAIGER "Green Guard" system

This SCHWAIGER® PIR motion detector for outdoor use is used to secure property and houses. As soon as the motion detector detects a violation, a signal is sent to the centre unit which then triggers an alarm in order to discourage intruders. The PIR motion detector

is an additional product for the SCHWAIGER® wireless alarm system "Green Guard". The sensor only works in combination with a centre unit (e.g. HG1000 or HG2000) and cannot be used individually.

(HGA400 533)

- alarm is triggered upon detection of motion
- for securing property or gardens
- large range of radio signal
- built-in PIR sensor makes for reliable detection of motion
- easy installation
- additional product for the SCHWAIGER® wireless alarm system "Green Guard"
- battery-operated (batteries not included)
- content: motion detector, wall mount, mounting material

TECHNICAL DATA

Point of use	indoor and outdoor use
Mounting type	with screws
Radio frequency	868.35 MHz (+/- 0.5 MHz)
Radio range	(max.) 250 m (open area)
Settings (code)	home security code: via 4-pin jumper/ zone code: via 8-pin jumper
Coverage angle (PIR)	110 °
Batteries	1x 6LR61 (9 V Block)

Power supply	via batteries
Material of product	plastic
Colour	black
Dimensions (width)	65 mm
Dimensions (height)	40 mm
Dimensions (depth)	120 mm
Packaging	sealed blister SF
