

Video Surveillance Warning Sign

"Dieser Bereich wird videoüberwacht!"

This SCHWAIGER® warning sign is used to inform about video surveillance on properties and may also serve to deter possible intruders or thieves. It is made of a scratchproof and uv-resistant aluminium composite panel and is therefore perfect for outdoor use. The warning

sign can be flexibly attached to walls or surfaces with double-sided tape. Thanks to four drill holes, it can also be permanently installed with screws.
