## SAT/Antenna Connection Cable (75 dB)

F connector > IEC jack

This SCHWAIGER® SAT connection cable can be used for connecting the satellite receiver to the SAT socket or to the antenna socket. This cable is shielded twice and, thus, has low susceptibility for electromagnetic inter-

ference. The cable has a shielding value of 75 dB.

(KVCK173 532)

- shielded twice for low susceptibility to electromagnetic interference
- solid nickel-plated internal PIN
- solid connector, moulded on both sides

## TECHNICAL DATA

Quality	* Standard
Connections	1x F connector 1x IEC jack
Colour	white
Impedance	75 Ohm
Plugs	plastic fully shielded
Cable design	0.5 mm (inner conductor) 2.8 mm (dielectric) 5 mm (sheath)
Shielding	shielded twice
Shielding value	> 75 dB
Inner conductor	CCS
Cable length	3 m
Packaging	sealed blister SBL03

Last updated: 25.01.2017
