SAT Connection Cable (110 dB)

90° Angled F connector > F connector

This SCHWAIGER® SAT connection cable is designed to meet higher requirements of high resolution audio and video transmission. It is particularly suitable for connecting a satellite receiver to a satellite connector socket equipped with an F connection. Due to the very high shielding efficiency of 110 dB, the

cable offers best possible protection against electromagnetic interference and radio interference of any kind. The cable is equipped with one 90° angled plug and has an inner conductor made of copper, which makes for interference-free reception.

FEATURES (KVCW15 532)

- particularly suitable for HDTV via satellite
- shielded 4 times to effectively reduce electromagnetic interference
- inner conductor made of copper for good signal transmission
- best-possible conductivity and minimum transmission resistance due to gold-plated contacts
- Robuste Stecker mit Kabelführung

TECHNICAL DATA

Connections	1x 90° angled F connector 1x F connector
Impedance	75 Ohm
Plugs	metal nickel-plated
Cable design	1 mm (inner conductor) 3.1 mm (dielectric) 6 mm (sheath)
Shielding value	110 dB
Shielding	shielded 4 times
Shielding material	aluminium composite film/96-wire aluminium braid/aluminium composite film/128-wire aluminium braid
Inner conductor	CU
Cable length	1.5 m
Colour	white
packaging	sealed blister SBL04
