

Antenna Connection Cable (75 dB)

IEC plug > IEC jack

This SCHWAIGER® antenna connection cable is suitable for antenna systems and cable TV systems. It is shielded twice, which makes it less prone to any kind of signal interference.

The cable is used between the antenna socket and a receiver.

FEATURES (KVK150 032)

- shielded twice for less electromagnetic signal interference
- shielding consists of aluminium foil and wire mesh
- for connecting a device equipped with an antenna connection to an antenna socket
- example for connection: antenna socket > cable receiver

TECHNICAL DATA

Norm/Classification	connection according to DIN 45325 (IEC 169-2)	Shielding value	up to 470 MHz > 75 dB up to 862 MHz > 65 dB
Connections	1 x IEC connector 1 x IEC jack	Shielding	shielded twice
Form of cable	round	Cable length	15 m
Impedance	75 Ohm	Colour	white
Plugs	metal plastic	packaging	sliding blister 5e
