Antenna Connection Cable (90 dB)

IEC plug > IEC jack

This SCHWAIGER® antenna connection cable is suitable for antenna and cable TV systems. The cable is shielded twice. Its high shielding value of 90 dB offers additional protection against electromagnetic inter-

ference. The cable is used to connect a receiver to the antenna socket.

(KVKHQ200 532)

- for connecting a device equipped with an antenna connection to an antenna socket
- particularly suitable for HDTV via cable TV
- shielded twice for optimum protection against electromagnetic interference
- high shielding value is guaranteed
- best-possible conductivity and minimum transmission resistance due to gold-plated contacts
- solid plug made of plastic

TECHNICAL DATA

quality	** Professional
Colour	white
Connections	1 x IEC connector 1 x IEC jack
Impedance	75 Ohm
Plugs	plastic contact: metal gold-plated
Cable design	0.65 mm (inner conductor) 4.4 mm (dielectric) 6.5 mm (sheath)
Shielding value	90 dB
Shielding	shielded twice
Shielding material	aluminium composite film/aluminium braid
Cable length	20 m
packaging	sealed blister SBL05 Higher
