Antenna Connection Cable (90 dB)

IEC Angled plug > IEC Angled jack

This SCHWAIGER® antenna connection cable is suitable for antenna and cable TV systems. The cable is shielded twice. Its high shielding value of 90 dB offers additional protection against electromagnetic interference. The 90° angled plugs prevent the cable and the

shielding from breaking. The cable is used to connect a receiver to the antenna socket.

FEATURES (KVKWHQ30 532)

- for connecting a device equipped with an antenna connection to an antenna socket
- ideal for usage with antenna sockets situated behind furniture
- shielded twice for less electromagnetic signal interference
- high shielding value is guaranteed
- best possible conductivity and minimum transmission resistance through gold-plated contacts
- solid plastic plug

TECHNICAL DATA

quality	** Professional
Connections	1x angled IEC jack 1x IEC angled connector
Impedance	75 Ohm
Plugs	metal gold-plated pin
Cable design	0.65 mm (inner conductor) 4.4 mm (dielectric) 6.5 mm (sheath)
Shielding value	90 dB
Shielding	shielded twice
Shielding material	aluminium composite film/aluminium braid
Cable length	3 m
Colour	white
packaging	sealed blister SBL02
