

## Luceco LED Light Bulb (5 W, GU10)

GU10 base, warm white, dimmable

This Luceco light bulb with GU10 base allows for saving up to 80 % of energy costs compared to traditional light bulbs and contains state-of-the-art LED technology. Due to its long service life and low maintenance costs, this light bulb is the perfect substitute for all

traditional light bulbs. This dimmable 5 W LED bulb corresponds to a warm white, 50 W halogen light bulb.
