12 V charging adapter (coiled cable), glowing cigarette lighter > USB 2.0 Micro-B plug

This SCHWAIGER® charger allows for easy charging of portable devices equipped with a Micro USB connection, e.g. smart phones, tablets or cameras, while being in the car. There is no need for any additional cables. Due to its coiled cord design, the cable is

exceptionally flexible and adjustable without causing annoying cable tangle. Another special feature is the fact that the charging process is visualised by constant glowing of the cable.
