Micro USB Sync & Charging Cable

USB 2.0 A plug > USB Micro B plug

Our SCHWAIGER® Sync & Charging Cable is designed for connecting with a smartphone, tablet, camera or powerbank. It can be used to synchronize or charge the respective device. Either the original USB power supply or an universal charging adapter can be used.

Thanks to its gaudy colour, the charging cable is also a real eye-catcher in any living room and stands out from the monotonous standard colours.
