Power Bank (12000 mAh)

with starting aid function and transport case

This SCHWAIGER® power bank is the perfect tool for emergencies. The two integrated USB connections allow for charging of portable devices such as smart phones, tablets or cameras when using the original charging cable. A special feature of this power bank is

the starting aid function which enables you to jump start any kind of car battery. For convenient transport, the power bank and all accessories come in a handy transport case.
