Power bank (8000 mAh) with wireless charger

including capacity indicator in plastic housing

Our SCHWAIGER power bank is made for charging mobile devices via USB and Type C as well as for wireless charging. No matter which smartphone, the universal Powerbank provides almost every device with the necessary energy to never let you run out of

power on the go. Simply connect your mobile phone with your own cable and you're done. Or even better: Use the wireless charger function without any cables. This way you're not only saving space, but you're also getting rid of the annoying tangle of cables.
