12 V & 230 V Micro USB Charger Set "Smart"

This SCHWAIGER® charger set offers a universal solution for charging devices with Micro USB connection in cars and trucks as well as at a 230 V socket. It consists of a Sync & charging cable and one 12 V and one 230 V charger adapter each. Both convince by an

intelligent control of the charging current, since they adapt automatically to the current energy demand of the device. This results in significantly shorter charging times compared to conventional charging adapters.
