

Mobiset Work Light for Tools

The Mobiset WorkLight is a mini lamp which is only 2.4 cm long. Due to the built-in magnet, it can be attached to any metallic tool, e.g. screwdriver. Thanks to the lamp being magnetic, you always have one hand free. The light is automatically switched on upon

connecting with the tool. Three button cell batteries allow for up to 10000 times of use or 8 hours of continuous use.
