CAT 6A Network Connector Outdoor

RJ45 socket | RJ45 socket

Our SCHWAIGER CAT 6A network connector especially is designed to connect two network cables with RJ45 connectors in outdoor areas. Thanks to its IP68 certified structure, the connector is absolutely dustproof and waterproof, making it ideal for permanent outdoor

use. The RJ45 modular coupling allows patch cables to be extended effortlessly while at the same time protecting the connection perfectly from dirt and moisture.
