## Antenna Socket (8 dB)

directional coupler socket

This SCHWAIGER® antenna socket is suitable for use on CATV, broadband cable TV systems and satellite TV systems. Thanks to the special clamping technique, the cable connections do not have to be screwed.

## FEATURES (RDS30 021)

- hinged clamp for fastening of the outer conductor (max 7.5 mm)
- clamping technology for screwless fastening of the inner conductor (Ø 0.8 - 1.3 mm)
- crimping fastener for plaster inserts (55mm)

## TECHNICAL DATA

Technology	broadband cable systems/community antenna system/satellite systems	Tap loss	(typ.) 8,5 dB (SAT) (typ.) 7 dB (terrestrial)
Connections	1x IEC jack 1x IEC connector	Transmission loss	4 dB (terrestrial) 6 dB (SAT)
Connections (input)	1x detachable contact clamping spring	Mounting depth	22 mm
Connections (output)	1x detachable contact clamping spring	Material of product	aluminium die cast
Frequency range	5 - 2150 MHz	Dimensions (width)	70 mm
Isolation	862/2150 MHz 28/22 dB (TV / radio) 862/2150 MHz 32/22 dB output/TV	Dimensions (height)	66 mm
		Dimensions (depth)	22 mm
		packaging	sliding blister 3c
