SCART/CINCH Adapter Cable

SCART plug (21-pin) > 3 CINCH plugs

The black SCHWAIGER® SCART/CINCH adapter cable is used for connecting display devices equipped with a SCART input, e.g. a TV, to devices equipped with a CINCH output, e.g. an amplifier. The doubly shielded adapter cable transmits audio and video signals in

stereo quality (yellow = video, red and white = audio -stereo-).
