21-pin

3-Way SCART Distributor

SCART plug (21-pin.) > 3 SCART sockets (21-pin.)

This SCHWAIGER® SCART distributor is used to transmit audio and video signals of up to 3 playback devices to the TV. All sockets can be separately switched in parallel. Double shielding of the cable guarantees mostly interference-free signal transmission. This distributor

has an elegantly designed silver housing. Gold-plated contacts allow for better transmission quality.
