## SAT Finder (6+1 LED)

This SCHWAIGER® SAT finder allows for fast and precise alignment of a satellite system. 6 light-emitting diodes indicate the respective reception level and a green LED displays the operating status of the SAT finder.

## FEATURES (SF70 221)

- fast and precise alignment of satellite offset antennas
- especially suitable for ASTRA and EUTELSAT
- clear display of all data due to bright LEDs
- acoustic field strength signal
- light-emitting diodes with broad measurement range
- power supply through the connected receiver
- F connections

## TECHNICAL DATA

Connections	2x F jack
Display	7 LED
Frequency range	950 - 2150 MHz
display for signal quality	yes
Display of signal strength	yes (acoustically)
Transmission loss	< 8 dB
Power supply	12 - 20 V DC 10 mA
Accessories (included)	F connection cable (1.5 m), detailed user manual
Dimensions (width)	93 mm
Colour	silver
Dimensions (height)	49 mm
Dimensions (depth)	30 mm
packaging	sliding blister 5c
