## LCD SAT Finder

with compass and acoustic level indicator

This SCHWAIGER® SAT finder allows for fast and precise alignment of a satellite system, especially ASTRA and EUTELSAT. The device is easy to operate and ideal for home use. An illuminated display and an acoustic signal indicator allow for fast alignment of the

satellite system. Thanks to the optional signal attenuation, even LNBS with a very high output level can securely be set to maximum.

## FEATURES (SF80 531)

- fast and precise alignment of satellite offset antennas
- especially suitable for ASTRA and EUTELSAT
- compass for precise horizontal alignment
- power supply through the connected receiver
- F connections

## TECHNICAL DATA

quality	** Professional
Connections (input)	1x F jack
Connections (output)	1x F jack
Display	LCD display
Frequency range	950 - 2150 MHz
Display of signal strength	yes
display for signal quality	yes
Transmission loss	< 3 dB (typical)
Power consumption	(max.) 110 mA
Power supply	12 - 20 V
Material of product	plastic
Accessories (included)	detailed user manual
Dimensions (width)	100 mm
Colour	blue
Dimensions (height)	24 mm
Dimensions (depth)	67 mm
packaging	sealed blister SBL03
