## SAT Finder HD

The alternative to professional meters!

This splash-proof SCHWAIGER® SAT finder allows for fast and easy finding of satellite positions and optimum alignment of a satellite antenna. Good readability of the signal strength and quality - thanks to bright LEDs - facilitates alignment enormously. The SAT

finder is equipped with an integrated lithium polymer battery and is suitable for all common LNBS.

### ARTICLE INFORMATION

Article Nr SF9002 011  
EAN 4004005528404

Last updated: 24.03.2016

## FEATURES (SF9002 011)

- precise signal indicator
- DiSEqC function to select Monoblock LNBS
- displays the satellite within seconds (at max. signal level)
- suitable for all single, twin, quad, quattro, monoblock and Unicable (Legacy Port) LNBS
- clear display of all data due to bright LEDs
- light-emitting diodes with broad measurement range
- power supply via integrated battery
- update with Mini USB data cable via computer
- splash-proof IP54
- detailed display of signal strength
- fast and easy alignment of a satellite antenna to up to 18 satellite positions
- accessories (included):
  - 1x power supply unit 12V DC / 2A
  - 1x car charging cable 12V DC
  - 1x BNC adapter
  - 1x 1 m connection cable
  - 1x 1 m Mini USB cable

## TECHNICAL DATA

quality	*** Ultimate
Connections	1x BNC socket
Display	light-emitting diodes (LED)
display for signal quality	yes, through BER evaluation
Display of signal strength	yes
Power supply	12 V DC
Power consumption	without LNB: 4 W
Material of product	plastic splashproof
Accessories (included)	retaining strap
Dimensions (width)	92 mm
Colour	black
Dimensions (height)	165 mm
Dimensions (depth)	27 mm
packaging	carton
