Aluminium Offset Antenna (85 cm)

Premium Class, brick red

This SCHWAIGER® offset antenna allows for reception of all free and encrypted TV and radio stations via satellite. Thanks to its size, the offset antenna has a very high reception reserve under bad weather conditions such as rain or snow. The dual LNB support arm and

the back part have the same colour as the dish. A special feature of this offset antenna is the dual LNB support arm which has a scale on both sides showing the elevation settings.
