## S-VHS/CINCH Adapter

Hosiden plug > CINCH jack

This SCHWAIGER® adapter is designed for transmission of video signals. It can be used to convert signals of CINCH connections into signals for S-Video connections. For example, a CINCH cable is plugged into a SAT receiver or TV equipped with a CINCH input (jack)

and connected to the adapter via the CINCH jacks. Via an S-Video cable, the adapter is connected to a video recorder equipped with an S-Video output (plug).

### ARTICLE INFORMATION
