

## LED Warning Light

with 9 different warning functions

This SCHWAIGER® LED warning light is equipped with 16 LEDs and can be used in hazardous situations. The bright LEDs guarantee strong signal effect. In addition, the warning light has 9 different light modes. The warning light is used for additional protection

of accident or danger spots for rescue services as well as for everyday use or diving. Due to a strong magnet, the light can be fixed to metal surfaces.

  - 4 » alternating flashing light
  - 5 » SOS flashing light
  - 6 » bright continuous light
  - 7 » low steady light
  - 8 » 2 LED continuous light
  - 9 » 3 LED white continuous light
- content: lamp, charging adapter (230 V), car charging adapter (12 V), charging cable, magnetic connection hub

## TECHNICAL DATA

Type of lamps	light-emitting diodes (LED)
LEDs	16x LEDs
Range	day: 100 m night: 600 m
Charging time	2-3 h
Run time	50 h
Power supply	input 100-240 V AC , 500 mAh (charger) output 5,5 V , 1500 mAh (charger) input 12-24 VDC (cigarette lighter) output 5,5 V , 1500 mAh (cigarette lighter)

Material of product	plastic
Colour	orange
Weight (set)	device 290 g
Dimensions (width)	108 mm
Dimensions (height)	108 mm
Dimensions (depth)	35 mm
Packaging	plastic giftbox with euro hole
