

devolo WiFi Repeater

More fun, more excitement, more knowledge.

There simply is more to experience with the WiFi repeater from devolo. It supplies your mobile devices with WLAN reception with fast 300 Mbit/s data throughput and a Fast Ethernet LAN port for an additional terminal device. The multi-level, visual LED display

indicates your current WLAN signal strength at all times. In addition, the compact design fits elegantly into any interior design and allows for flexible positioning throughout the entire flat - wherever there is a power outlet.
